Reed and Jenkins were some of the first students to enroll in the college's travel and tourism program last spring. May we all wish them good luck!

## BENCHES AND TABLES DONATED TO THE FREDD CAMPUS

Thanks to the efforts of the former Student Government Association of Fredd State Technical College, students on that campus can now enjoy outdoor seating in comfort --- whether waiting for the bus, reading, taking a break from class, or chatting with friends. New tables and benches have been purchased for the Fredd Campus. The funds used to purchase the tables and benches resulted from special SGA projects completed prior to the merger with Shelton. Sam MERRIWEATHER and

Shirley Spencer served as advisors of the group. The current SGA for Shelton State includes students from each of the college's campuses.

## LIBRARY NEWS

The name of the new electronic library assistant is SHELBY. The letters in the name are taken from SHelton ELectronec liBrarY and the logo was designed by Shelton commercial art student Ken Roach. Two faculty members submitted the name, Bill Aldridge and Andrea Bowden. Each won a dinner for two at Chili's Restaurant. Winners of the poster give-away were Ivory Woltz, Lee Albritton, Kendrick King, and Arthur Carr.

A special thanks also goes to Tim Shuman, Pepsi Cola; Humphrey Lee; Lad Marks, Chili's; the Shelton State Foundation; John Freed; Julia Seales; Carol Busey; and Angela LaPorte. ## DEANS' CORNER

Arthur Howington

In August, the Alabama Commission on Higher Education (ACHE) established a statewide planning initiative for associate-level allied health education in the State of Alabama. The need for this initiative originated with the decision of the University of Alabama at Birmingham to terminate its 10 allied health linkage programs.

Chancellor Gainous was invited to make three appointments to this task force of stakeholders in allied health education who will lead this initiative. The task force would work with consultants employed by ACHE to compile data, research the need for associate-level allied health education, and develop recommendations for ACHE to consider.

Chancellor Gainous appointed Evelyn Mettee of Shelton State as one of the three post secondary education members of this

ACHE task force. Evelyn has long been active in matters of allied health, and this appointment is recognition of her knowledge, her expertise, her experience, and her continuing contribution to this important educational area.

The two other task force members appointed by Chancellor Gainous are Dr. Bert Slafster, assistant director for new programs, Department of Postsecondary Education; and Dr. Joe Morris, dean of instruction at Jefferson State Community College.

Congratulations to Evelyn on her appointment.

Shelton State received a report dated August 20 on the results of 12 Shelton State students who recently have taken the Alabama State Real Estate Examination to become licensed as real estate salespersons. All of these students had successfully complete the real estate class taught by Britt Turner.

The state examination results look quite good. Eleven of the 12 Shelton students who took the exam passed for a 92% passing rate. Statewide, 225 students took the exam, and 141 passed for a passing rate of only 63 %.

In addition, the mean score earned by Shetlon students was higher than the mean score for all students who took the exam on seven of the eight individual sections of the examination.

This is a fine performance by this group of students, and Dr. Turner should be proud of his continuing success in this particular activity of our institution.

## NEWS FROM THE SHELTON STATE FOUNDATION

The Foundation's Barbecue Bash netted over \$5,000 profit this year. This is money that will go directly to fund some of the Foundation's scholarships. Many thanks from the Foundation Board of Directors to everyone who supported the Bash this year.

## NEW FOUNDATION SCHOLARSHIP GUIDELINES

Several years ago the Shelton State Foundation established a scholarship program. The Foundation is deeply appreciative for the support it has received for this project. In order to keep administrative

costs to a minimum, the following criteria for establishing and maintaining a Shelton State Foundation scholarship fund has been established.

1. All Foundation named funds must be established and maintained at a minimum \$5,000 level. The only exceptions would be:

a. A fund may be established at less than the \$5,000 level if the monies in the fund are deposited and then spent in the same calendar year.

b. A fund may be established at less than the \$5,000 level if a written agreement is made between the person(s) or organization establishing the fund and the Foundation stating that enough money will be added to the fund annually over a period not to exceed five years until the \$5,000 level is reached.

2. All monies given to the Foundation for scholarships that do not meet the above criteria will be deposited into one of the Foundation's existing scholarship funds or will be made a part of the Foundation's general scholarship fund. Please call the Foundation office for more information, 391-2298 or 391-2221.
